

Using Google Maps, the time it takes from the Blackwood's residence at 12 Eagle Pt Drive to the Lone Wolf Lounge is approximately 18-19 minutes.

The scenario where Victor Blackwood murdered his wife, Connie Blackwood, and then drove to the Lone Wolf Lounge is disproven by the fact that there is an 8 minute difference between Victor Blackwood's documented appearance at the Lounge at 10:53 p.m. and the death of Connie Blackwood at 10:45 p.m. Meaning it would have been impossible to travel what is an estimated 18-19 minute drive within 8 minutes.

Thus, Victor Blackwood's alibi and statement of having been elsewhere at the time of the murder is factual.
